

PRIME SAME DAY SEALER

**SAME DAY SEALER IS A PENETRATING, BREATHABLE COATING
DESIGNED FOR "SAME DAY" APPLICATION
ON FRESHLY POURED CONCRETE**

PRIME SEALER RANGE

KEY TIPS FOR APPLYING PRIME SAME DAY SEALER

Same Day Sealer is a ready-to-use, solvent-based acrylic sealer specially formulated for same-day application on freshly poured concrete. Designed for green curing surfaces, it penetrates deeply while allowing the concrete to breathe, enhancing the appearance with a wet or semi-gloss finish.

It provides short-term protection against weather and surface damage, allowing your project to move forward with confidence knowing the surface is protected from day one.

Once the concrete has fully cured, we recommend applying a follow-up coat using one of Prime Exposure's most suitable clear sealers to achieve long-term durability and enhanced finish.

Application:

- Apply to freshly poured concrete providing the surface is firm and tolerant to foot traffic.
- Ensure the surface is free from any contaminants and not saturated with moisture.
- Do not dilute
- Apply a single coating with a xylene resistant sprayer or roller. Preferred application is with a spray unit to reduce possibility of roller lines.

Recommended Application Tools:

- Use a Prime 10-20mm nap roller for smooth or low porosity surfaces
- Use a Prime 25mm nap roller for rough or porous surfaces such as exposed aggregate
- Xylene resistant spray unit

Slip Resistance:

Areas may become slippery when sealed, consult your Prime Exposure stockist about using Prime Anti-Slip (glass beads) on your project.

Important: Allow the surface to cure thoroughly. Do not drive on the sealed surface for 5-7 days to ensure full resin hardening.

PRIME EXPOSURE SEALERS

PRIME ONE COAT SEALER

Prime Exposure One Coat Sealer has been specifically designed to save time and money whilst delivering the same results as a two coat process.

PRIME SAME DAY SEALER

Prime Same Day Sealer is ready to use and can be applied directly to green curing concrete. It retains a wet/semi-gloss appearance. The perfect sealer to keep your project on the move.

PRIME STANDARD SEALER

Prime Exposure Standard Sealer will enhance the colour of your decorative concrete, designed for enduring performance and timeless appeal.

PRIME ULTIMATE COVERAGE

Prime Exposure Ultimate Coverage addresses both the practical considerations and performance requirements of a job. Experience the convenience, efficiency, and outstanding quality of Ultimate Coverage. This product is an general purpose sealer that will transform your concrete project into a resilient and visually stunning masterpiece.

PRIME COLOURED SEALER

Prime Exposure Coloured Sealers will transform the look of your new or existing concrete or most masonry surfaces and keep it looking like new for years.

**OUR PRIME SEALER RANGE IS PROUDLY
MADE AND TESTED IN AUSTRALIA,
FOR AUSTRALIAN CONDITIONS**
